Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides information on the 2022-2023 educational process for Central Montcalm Middle-High School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Charity Stephens, Principal, for assistance.

The AER is available for you to review electronically by visiting the following website, www.central-montcalm.org or you may review a copy in the main office at your child's school. The website to view school data on student achievement and teacher quality and accountability can be found on [MiSchoolData](#).

Our school is working to address the gaps in test scores with subgroups such as students with disabilities. We are continuing to make sure 80% of our students are successful with behavior. We are continually working on improving our curriculum and instruction. Key initiatives to address these challenges are Tier 2 and 3 research-based programs, targeted instructional intervention, writing district common assessments for math and English/Language Arts, and identifying priority standards at each grade level. SWARM and Learning Lab periods are being utilized daily with a focus on social-emotional learning, academic coaching, and relationship building.

Generally, students enrolled at CMMHS are residents of our local district. We do, however, have students who are choosing to enroll from other districts through the schools of choice process.

CMMHS was in the third year of the 5-year school improvement cycle. We are focused on the goal of improving student achievement in Reading. Our core curriculum follows the Common Core State Standards for ELA and Math and the Grade Level Expectation Curriculum for Science and Social Studies. A copy of the core curriculum is available through the curriculum director's office.

The philosophy of Central Montcalm Public Schools is to serve each special needs student in the least restrictive environment. A continuum of educational placement options is offered to individuals from birth to age 26. Supportive services and vocational training programs are designed to meet their special needs. Placement options are offered through the cooperative efforts of Central Montcalm Public Schools and the Montcalm Area Intermediate School District. MAISD and local districts combine to operate programs for low-incidence populations. Each district has placement access to categorical programs operated by other districts if appropriate. This allows a complete continuum of services to be made available in an efficient and cost-effective manner. Central Montcalm Middle-High School offers programs for students with learning disabilities, cognitive impairments, students with Autism, and emotional impairments.
